Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 01 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 October 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. This office action is in response to the Amendment filed October 14, 2003.

Accordingly, claims 1-6, 8-18, 22 and 23 were amended, claim 21 was cancelled, and new claims 24-33 were added. Currently, claims 1-20 and 22-33 are pending in this application.

Response to Arguments

2. Applicant's arguments with respect to claims 1-20 and 22-33 have been considered but are moot in the following restrictions.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. Claims 1-14 and 24-29 drawn to a liquid crystal device and a method of manufacturing the same comprising a surface alignment structure providing a single desired alignment to a liquid crystal director, wherein the device does not include the surface alignment structure comprising a sinusoidal bigrating.

- II. Claims 15-17 and 30 drawn to a liquid crystal device comprising a surface alignment structure providing one of a desired homeotropic or tilted homeotropic alignment to a liquid crystal director.

- III. Claims 18-20 and 31 drawn to a liquid crystal device comprising a surface alignment structure providing a desired alignment to a liquid crystal director in a single azimuthal direction.

IV. Claims 22 and 32 drawn to a liquid crystal device comprising a surface alignment structure providing desired alignments to a liquid crystal director in at least three azimuthal directions.

V. Claims 23 and 33 drawn to a liquid crystal device comprising a surface alignment structure providing a single desired alignment to a liquid crystal director, wherein the device does not include any alignment posts formed from a material inducing local homeotropic alignment in the liquid crystal material.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 2871

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thoi V. Duong whose telephone number is (703) 308-3171. The examiner can normally be reached on Monday-Friday from 8:00 am to 4:00 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim, can be reached at (703) 305-3492.
